

HISTORY OF THE 2/2 PIONEERS

The human touch is urgently needed by the 2/2nd Pioneer Battalion war history publication committee.

In a circular issued to members the committee asks for details of the "bravest action which went unrewarded; the funniest thing that happened; the most interesting person met or place visited." It reminds members that no information is too unimportant to be considered.

Members of the association who have not received the circular are asked to communicate with the secretary, Mr R. H. Coningsby, Room 6, Royle Chambers, 39 Puckle st, Moonee Ponds.
